do you think (.) most helpful uh
(useful) class in high school?

M2: Uh: I (2.7) I in my high school
I like (2.5) I like () I think math is
most important () because↑ uh
when the (3.4) when when I take
the entrance exam this university↑ I
I use math (and) after entering this
university I I I I used math
knowledge everyday so I I think
math is the most useful.

M1: Oh. I think P.E↑ (.) is the most
useful. (£) P PE make our health

M2: Yes

M1: so I I start started to live only
me. Health is very important.

M2: Yes.

M1: So P.E. is very useful. Heh heh
for me↑ for me↑ (.) Health health is
very (.) important I↑ I↑ (.) I have
caught caught a cold cold
(Japanese) uh: once (.) after I I live
here it is very mmm:↑ (3.7) uhm
difficult to take take care me so
health is very important, so P.E. is
very important. (9.9). Here↑ (your)
(class) here () your high school.
We:↑ we: take uhm some classes in
this university what what class
better than your high school? Your
high school class?
school ()?

M2: I think physics is better than in
high school. In ah high school
physics is used in (ski) and mainly
calculate so but university's to
demonstrate (and) so I think
university so I think physics is
difficult.

M1: Mmm. Difficult? ↑

M2: Ah Difficult. So is university
physics is advanced. And high
school physics is ().

M1: What↓ What class? I think (.)
English English class is better than
in my high school. (3.9) Uh: (.)
especially, English A, A1, uh
foreign foreign teacher teach teach
us, it is very good class. uhm In my
high school uh (.) some class uh
foreign foreign teacher teach us but
this class mmm (.) I think I don't (.)
I don't I was I was interested in this
that class but university English A
class is very interesting because↑ uh
(.) my teacher↑ makes us speaking
English.↑ It is very good. (.)
Language is mmm (5.0) learning
language, (.) speaking is very↑
important important factor mmm

improve language skill, so my hi-
my high school so uh f- few times
few times we we speak English but
this college class is very↑ many
times we speak English so I feel↑
that my English skill is improve.
And I (.) t is uh: ↑ interested (.) for
me.

M2: I sometimes feel listening
listening to listening to English too
hard so (.) what do you think
English about speaking foreign
people?

M1: Mmm ah uh I understand sixty
or eighty percent they speaking
but↑ my teacher speaks slowly, and
uh again and again, so I understand
(.) what they say. So ↓ (.) they use
very easy word. So I understand
most of what they say. So (.) Your
teacher is (difficult)?

M2: Ah so I don't, I don't feel my
my English teacher don't I don't
feel (hard) listen too hard, but ↑
sometimes uh another I met another
English teacher, so his English is
so, not so↑-

M1: heh heh

M2: so I feel (.) a little bit ().

M1: For example, Mr. Long? Heh
heh

M2: So so so I think (£)

M1: His English is difficult. I I
think so-

M2: but his English is nature in-

M1: Yeh

M2: United States.

M1: Good English but difficult to
understand. heh heh

M2: heh heh

M1: Class getting more difficult?
Getting more-

M2: I think I think English is
getting more difficult because high
school English is reading sentence
from the textbook so so in fifty fifty
minutes it it we can't read small
sentences but in but I become
university student in this
university's English so we should
read many sentence and have one
class, so I think English is become
more difficult.

M1: English. ↓ My English teacher
in my high school is (.) so so↑
difficult. And uh (.) My ronin
teacher is difficult, heh so the
college English is difficult but (.) so
there is not uh (.) I think uh it isn't
my this college English is difficult
isn't much more difficult this
college English class than my high
school class, English class. So I
think math is getting more difficult.
(Japanese) is very difficult.

M2: I think so.

M1: I don't like I didn't like math
three, math three in high school
student, in my high school so
(Japanese) is very difficult I
believe. (.) heh heh (3.7) uh other
class is getting more easy than high
school, so when I (.) I high school
student, I get fifty or sixty (.) score
in in test, so this college I get high
more high score so I feel getting
more easy. Heh heh.
